

MALWANDLA HLONGWANE

IT Support Technician / Junior Network Technician

Gauteng, South Africa | 065 883 1240 | MalwandlaHlongwaneICT@outlook.com | [linkedin.com/in/malwandla-hlongwane](https://www.linkedin.com/in/malwandla-hlongwane) | github.com/Malwandla21-ict

PROFESSIONAL SUMMARY

Final-year ICT (Applications Development) student at the University of Mpumalanga with a solid technical support and networking foundation, covering hardware/software troubleshooting (CompTIA A+ syllabus), network design and configuration (CompTIA Network+ syllabus), and IT service management best practice (ITIL v3 Foundation). Practical experience includes designing and configuring a two-campus WAN with segmented wireless networks. Seeking an IT Support, Help Desk, or Junior Network Technician role to apply and build on this foundation in a live production environment.

TECHNICAL SKILLS

- **Hardware & Troubleshooting:** PC hardware configuration & diagnostics, motherboard/memory/CPU/GPU components, laptop hardware & repairs, printer installation & troubleshooting, mobile device setup, sync, backup and security
- **Networking:** OSI/TCP-IP models, IP addressing & subnetting, routing & switching, VLANs & network segmentation, DHCP/DNS/NAT, wireless network configuration, WAN design, VPN & remote access, network troubleshooting
- **Tools:** Cisco Packet Tracer, Windows environment administration, command-line basics & scripting fundamentals
- **IT Service Management (ITIL v3 Foundation):** service lifecycle (strategy, design, transition, operation, continual improvement), incident/service request handling awareness, service level & availability management, change and service transition principles
- **Professional Practice:** technician conduct & communication, active listening, client-facing troubleshooting, IT ethics

PRACTICAL PROJECT

Two-Campus WAN Design & Configuration

Tools: Cisco Packet Tracer

Designed and configured a complete two-campus wide area network as a practical networking exercise.

- Built LAN infrastructure across 5 departments per campus, with 5 computers per department
- Configured separate SSIDs for student, staff, and guest Wi-Fi networks at both campuses (network segmentation)
- Established inter-campus routing and verified end-to-end connectivity via successful ping tests between campuses

RELEVANT COURSEWORK

- **Computing Theory / Help Desk (CompTIA A+):** hardware configuration & troubleshooting, memory & motherboard components, mobile device support, laptop hardware & repair, printer installation & management, IT roles and technician best practice
- **Networking (CompTIA Network+):** network topologies, IP addressing & subnetting, routing & switching, wireless standards, network security fundamentals, cloud & virtualization concepts, network troubleshooting methodology
- **IT Service Management (ITIL v3 Foundation):** ITSM fundamentals, service lifecycle, service design (catalogue, SLA, availability, capacity, continuity, security, supplier management), service transition, continual service improvement

EDUCATION

Diploma in Information and Communication Technology (Applications Development)

University of Mpumalanga, Expected Completion: 2026 | Average: 75-78%
